

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Old Testament and Semitic Studies in Memory of William Rainey Harper

Edited by

Robert Francis Harper, Francis Brown,
and George Foot Moore

These sumptuous volumes contain contributions from the chief Semitic scholars of the country on topics of timely interest in this field. They are intended as a memorial of a man whose influence on the study of the Old Testament has been as noteworthy as his success in the organization of a great university. A full description of the collection will be furnished on request. Two volumes, 878 pages, royal 8vo, cloth; net \$10.00, postpaid \$10.64. Sold by subscription only.

Hebrew Life and Thought

By LOUISE SEYMOUR HOUGHTON

The reader of the Bible who wishes to be well informed, and who yet finds little to attract him in accounts of scientific investigations, will do well to read this book. Enriched with the fruits of a lifetime of study and versed in the intricacies of modern criticism, the author approaches her subject with a depth of feeling that reminds one of the best religious writers of the past. 396 pages; 12mo, cloth; net \$1.50, postpaid \$1.65.

Guaranteed Reliability

For nearly sixty years, Bausch & Lomb have been building a reputation for high-grade optical apparatus—the strongest possible guarantee of reliability in

Bausch ^{and} Lomb Microscopes

They combine the highest optical efficiency and mechanical accuracy and are recognized as being most durable instruments. Leading educational institutions accept them as standard for their laboratories.

For all-round school and laboratory work Model F-2, illustrated, is especially recommended. It has a large stage, completely rubber covered, which with the long curved handle arm provides unusual space for object manipulation. The fine adjustment is the well-tried lever form, originally offered by us.

Price of Model F-2, \$31.50

Remington Adding and Subtracting Typewriter

(Wahl Adding Mechanism)

This machine does something that only the brain, directing the hand, has hitherto been able to do—that is, *writes and add (or subtract) on the same page.*

But this is not all. It does such work *more easily, more rapidly, and more accurately* than the human brain has ever performed similar labor.

Thus the machine is *human* in what it does and *super-human* in the way it does it.
